# Actuator <br> Specification \& Installation instructions 

Feature:
SM000S

- Mounts easy on round \& square shaft (with option -8).
- External clutch for manual adjustments.
- Maintenance free.

SM100S

- Position indicator.

SM120S

- Fail safe by Enerdrive System ${ }^{1}$ SM160S (on model $60 \& 80$ ).

SM200S

- Auxiliary switches

SM220S
(on model $20 \& 80$ ).
SM260S

## Caution

We strongly recommend that all neptronic® products be wired to a separate transformer and that transformer shall service only neptronic® products. This precaution will prevent interference with, and/or possible damage to incompatible equipment.
When multiple actuators are wired on a single transformer, polarity must be observed. Long wiring runs create voltage drop which may affect the actuator performance

## PC Board

## Stroke adjustment

To adjust the stroke, move the adjustment screws at the desired position.
